

Newsflash

Information Desk Reopens

The Information Desk reopened for Auxiliary service on Monday morning. The hospital staff and administration are delighted to have our volunteers back!

Anyone interested in adding or changing their service to the Information Desk should contact Corky in Placement at 650-962-4968.

President's Message

Linda Heider

As you have heard, I'm sure, things are beginning to open up and some restrictions have been lifted. Although that may be true outside the hospital, it is not inside the hospital. We are still required to be fully vaccinated and boosted and wear a mask at all times. In spite of that news, I do have some good news to report: as of Monday 3/14, the Information Desk in Mountain View has reopened. In addition our junior volunteers are coming back in June. And, Los Gatos has also lifted restrictions in their OPS service. All of this is very promising and signals a time when we be back to "normal." However, we need to continue to be vigilant and proactive when necessary. As always, as a volunteer, you need to know that you are very much appreciated and that your service to the hospital and community is significant and exemplary. Thank you seems inadequate, but it is heartfelt.

MARCH 2022 Announcements

Change to In-Person Meetings Guidance

Please remember that while the county has loosened its requirements for indoor masking in many locations, nothing has changed within healthcare facilities including El Camino Health. All employees, physicians and volunteers **must wear hospital-issued masks and eye protection** (the latter when in patient care areas) at all times, apart from when eating and taking sips of beverages.

Happy St. Patrick's Day

Spotlight on Escort Volunteers

Our Escort volunteers have been assisting with the mailing out letters for the Imaging Department. Thank you for your great work!
